### Define Problem Statements (Customer Problem Statement Template):

| Problem Statement | I am (Customer)                                    | I'm trying to                                                 | But                                                        | Because                                                                                           | Which makes me feel                    |
|-------------------|----------------------------------------------------|---------------------------------------------------------------|------------------------------------------------------------|---------------------------------------------------------------------------------------------------|----------------------------------------|
| <b>PS-1</b>       | A customer planning to apply for a credit card.    | Check whether I am eligible before submitting my application. | I don't know if I satisfy the bank's eligibility criteria. | Banks have different approval requirements and applying unnecessarily may reduce my credit score. | Uncertain and hesitant to apply.       |
| <b>PS-2</b>       | A bank credit analyst.                             | Quickly evaluate large numbers of credit card applications.   | Manual verification takes considerable time and effort.    | Every application requires checking multiple financial and demographic factors.                   | Overloaded and concerned about delays. |
| <b>PS-3</b>       | A salaried employee looking for a new credit card. | Understand my approval chances instantly.                     | I have no easy way to estimate my eligibility.             | Traditional evaluation happens only after submitting a formal application.                        | Curious but unsure about my chances.   |

|             |                                     |                                                                |                                                                         |                                                                                                |                                         |
