

Team Involvement in Demonstration

Date	7 July 2026
Team ID	SWTID-2026-2018
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the project demonstration. It ensures that every member contributes meaningfully to the presentation and that responsibilities are distributed fairly and clearly.

Team Involvement in Demonstration

S. No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
1	Enikepalli Naveen Sri Sai	Team Leader & Presenter	Project Introduction , Live Demonstration, Conclusion	Coordinated the project, integrated the machine learning model with the Flask application, presented the live demo, and explained the overall solution.	Active
2	Harshitha Mani Chandana Mutakaratapu	Data Analyst	Dataset & Data Preprocessing	Collected the dataset, performed exploratory data analysis, data cleaning,	Active

				preprocessing, and feature engineering.	
3	Akshay Chatla	Machine Learning Developer	Model Training & Evaluation	Developed, trained, evaluated, and compared the Machine Learning models, selecting the final XGBoost model.	Active
4	Kijitha Rehana Shaik	Frontend Developer	User Interface	Designed and developed the responsive user interface, prediction form, and result pages using HTML, CSS, and JavaScript.	Active
5	Venkata Snehanjali Cheemakurthi	Testing & Documentation	Testing & Validation	Performed application testing, validated prediction results, verified functionality, and assisted in project documentation.	Active
6	Entire Team	Project Support	Project Review & Final Verification	Collaborated on project discussions, reviewed	Active

				implementat ion, and verified the final deliverables before submission.

Team Coordination Notes

Aspect	Details
Team Leader / Coordinator	Enikepalli Naveen Sri Sai
Overall Team Coordination Rating (1–5)	5 / 5
Any issues during demo	Minor formatting and deployment issues were identified during testing and resolved before the final demonstration.
How issues were resolved	Team members collaborated to fix UI alignment, retrained the machine learning model, verified prediction accuracy, updated documentation, and redeployed the application successfully.
